

Emergency Medical Technician Certification Class

National Registry E.M.S. Approved

CUSD provides a comprehensive program that is divided into two modules. The first module is didactic that educates students on emergency medicine in a field setting. This module will challenge your aptitude by understanding the pathophysiology of the human body, traumatic events and medical emergencies while enabling you to properly address these situations as they occur. The second module is the practical application of hands-on skills and demonstrations. This module will measure your skill level and competence in performing multiple aspects of emergency medicine by using various emergency equipment and implementing emergency protocols and procedures. This course provides **160** hours of didactic, skill and clinical training mandated by the State of California. This course has been approved by the State of California and is authorized by Mountain Valley EMS to provide Continuing Education Credit by California EMS CE Provider #60-1011.
